O diretor do filme e o ator Luan Lins e a atriz Lara Buzolin. Â–Vatsayana KamasutraÂ . Code Review - henry_flower ===== aemblem I've been doing code reviews for a few years. It's very interesting to me how different people approach it. I'd say I'm a little more manual. I try and get the other person to solve the problem as best as they can on their own then come back to me to review their solution once they have done that. Some people like to code walk it through, review each line, point out the whole solution, etc. Some like a brain dump from the person doing it. I've found that people who haven't done it before struggle with it, probably because they can't imagine their own solution. I think the best way of getting better at code review is to review code. ----- jboggan This is nice. Given the word count, it might be easier to just write the review on paper and then email it to the other party for them to read. This could be useful for things like "configuration management system", etc. Not requiring the person to be on the same machine or over the network is always nice. One thing that I didn't see on the list of things that can be reviewed was "unsolicited help." When a developer comes to you with an idea or solution that didn't come up in your conversation, how do you discuss it and ask for feedback without seeming condescending? ~~~ henry_flower Glad you like it. Yeah, I actually don't do much coding reviews on GitHub because it's too easy for people to just create issues to/from their own repos. Since I do most of my reviews on the same platform as the code, I usually end up talking to the authors
