The story of "Elsword: The Tarnished Prince" is the story of a young monarch in the Lands Between. He is a man who was born with a bandage on his face and lives in a world with no one to trust him. At the age of eleven, he decides to search for his birth parents and uncover the secret of his birth. During his journey, his personal conflicts arise, causing him to encounter the Strength Wizards, the best teachers in the world of magic and the strongest combatants on the ground.

1. GAMEPLAY The main feature of "Elsword: The Tarnished Prince" is the true-to-the-game action-RPGs which was able to provide the overall process of gameplay, while the game was well-played. Every action that you took will directly affect the battle between you and your enemies, and nothing is routine. While there is a wide variety of actions in the various modes of the game, it also has very clear character customization which allows players to enjoy different play styles.

2. GAME ENVIRONMENT The most exciting part about "Elsword: The Tarnished Prince" is the vast world of lands that are not restricted by geographical boundaries. The world is also big and beautiful with various and challenging dungeons to explore. However, though the game creates a huge world, there are still some things that bother me. For example, while the maximum level of the game is 99, there is no story that goes beyond that. The mode of multiplayer is incomplete as well. I expect that the developers will improve these points in the future.

3. UI & CONTROLS When it comes to the controls, it was smooth and convenient. However, since I'm not used to it, I have some trouble with the UI. I think it will become a little bit easier as I get used to it.

4. ACTION FIGHTING Overall, the controls are really good. It is easy to do any actions in the game, and it feels pleasant to perform. This is because there are different ways to do every action. For example, you can use new skills or fight the same way as you usually would.

5. CHARACTER CUSTOMIZATION This part is the most interesting one. I wonder if I could create a character based on my play style. For example, when I first tried to customize my character, I chose a bff6bb2d33
