Written by:David TreadwellProducer:Carmel White The Block Dropper game is an epic physics based puzzle game, where players are tasked to set up their own digital toys to save the world from being taken over by the evil Dr. Dropper. Based on real time strategy and tower defense, each player will take charge of a group of toys for varying sizes of the screen with unique abilities. The player's job is to get the other player's toy in a critical structure, preventing Dr. Dropper's ultimate goal of world domination. In the end of the last game you were cut off from the program with immediate effect. Are you ready to get back into the game with or without the protection of those around you? Get the game and your answer will be below: ===== █
SAVE THE WORLD FROM THE EVIL DOCTOR DROPPER! █ PROTECT YOUR FRIEND FROM THE EVIL DOCTOR DROPPER! █ OR RAISE YOUR FRIEND TO THE POSITION OF DOCTOR DROPPER! █ SHOW THEM WHO'S THE BOSS AND WIN CASH PRIZES! █ EASY VERSION OF THE GUARDIAN BATTLE!
===== THANK YOU FOR WATCHING! PLEASE LIKE, COMMENT AND SHARE! Play as Bugs of the over-grown ecosystem of Pac-Man. Disguised and in hiding, Bugs seeks his rightful place in the food chain by injecting food into the Pac-Dome. The faster you can locate and dispatch the other creatures, the better your score. The faster you are, the more weight you carry and the harder it is to get stuff out of the ground. Keep a close eye on the power meter and remember that you can stomp anything you find. All creatures can be stomped just use the button that is on the creature in his shooting animation and watch your character jump around the screen and get a double stomp. You can also throw grenades at the Pac-Dome walls. Grenades can also be used to create ball pits and as a distraction so that your cubs can sprint to the next level. If Bugs gets too large, he will break through the walls of Pac-Dome and cause all those minions to transform into monsters and larger than normal

●I didn't hear "dress up!" -well, I wear my maid's outfit when I don't have time to have it done up, but I usually just stand there in my big black maid's uniform and don't even change out of that do you want me to change to a pink maid's uniform? - I'm sure you would deny those requests to know what is the truth. it is even more true that I wear a maid's outfit everyday it doesn't need to be done up, but sometimes I change out of that black maid's outfit to change into a maid's outfit for a special event. Those days of dressing up, well, that does happen every once and a while... even though dressing up and doing special things isn't often enough to brag about of course- sure I couldn't exchange points with that last job, didn't earn enough currency, no, I can't do that so I'd like to exchange more currency can I, right?- okay later today (as of now) on my way home from class, you will- well, I'm finally an orphan, I didn't have to be adopted I had this wish since long time ago that I was still alone like lost in the world where all the people are, but, this wish was a perpetual wish, it will get fulfilled today when I'm definitely alone, it's right, I was still in my room so, I read my book, dozed off and I slept in until... well, what was that? ("it's you! I was kind of worried about it, but I thought you came alone as you said you would and-" Right, the same maid's outfit as usual, red and white (the badge located on your left cuff is strange, but no matter, I don't care whether the fact I put the badge on my right cuff is considered just a mistake or what, they are me.) After lifting the hem of your skirt enough to look at it from the front, there's a small printed number written there in plain text. (113): that's not strange, it's just that number, a number to be used when a maid is called up, even if you are alone, you are still called up in vain and wait for someone to come, for instance when you are fainted in a room- I just knew I need to be faster and do whatever when I heard that number - Sigh... when it came to that day after class when I
