Epic Quest of the 4 Crystals is a hack & slash game with intense boss battles. It has 8 difficulty levels and a custom made difficulty level. That means one of the bosses will always be more difficult than the other ones! "Epic Quest of the 4 Crystals" is a reincarnation of an old 8-bit kind of game. And with re-written graphics and music, this remake makes Epic Quest even more nostalgic and inspiring for retro-gamers! The concept part of the concept for this remake is to take back the old retro-gaming vibe of "Epic Quest of the 4 Crystals" and the original NES version of it. The main character is named Leandra and he aims to clear all four crystals on the Earth. He has the ability to use mainly melee weapons and some projectile weapons. Along with the story, you will also play some mini-games throughout the whole game and will discover lots of new secrets. The graphics have a lot of parallax effect and detail. The main boss, Aluria, has an interesting fluid animation which reminds of the style of older game of "Super Mario Bros" or of "Final Fantasy". "Epic Quest of the 4 Crystals" is mostly hack & slash, but there is also a lot of dungeon-crawling and puzzle-solving during the story. "Epic Quest of the 4 Crystals" does not have any extras like touching of babies or dating girls. Yes, it is a game for men! Also it is not about shooting zombies and zombies shooting you! The bonus content are well written and have a lot of depth. In this case, "Epic Quest of the 4 Crystals" is just a bonus of the game, not required. I hope you enjoy it and if you do, I'd love it if you could give me a review on Steam, telling me what you think of it. I'm grateful for your feedback! Best Regards, Best, Stefan <Ecaserealness> If you like the game, you can support me. The donation amount is up to you. It is completely voluntary and I prefer if you can donate as much as

Featuring updated, improved character models and backgrounds, the campaign environments have been restyled to look more presentable at this point in the game's development. The technical limitations of the original game have been mostly addressed and while some effects have been overhauled to improve the visual quality, the game should now run at a very playable framerate on a standard computer. The new lighting system, which replaces the original one, provides a better and more realistic environment. The game also supports Steam achievements, Steam trading cards, and provides Steam Cloud support. Personal and Family Story: In the beginning, all of us were a bunch of kids with nothing better to do than hang out, play video games, and have fun. We lived in a small town that consisted of a few shopping centers, a gas station, a movie theater, a few arcade places, and a few coffee shops. It was the perfect place to be, I guess. We eventually started hanging out at one of the coffee shops, which was actually the haven of our dreams. That was where we would meet up to play our favorite games and chill out with our favorite games. We would even host some of the best people in the world at our place. Back in those days, everything was so innocent. The world was different, but we were experiencing it all for the first time, so it all seemed to us like our first time. We were the people who were all about "being there" for others, and we all enjoyed telling jokes, playing games, and being happy. As time went on, life in that small town was beginning to change. We could tell something was going on, but we were too young to really understand what it was. A lot of our friends started moving away, leaving a gaping hole in our lives. Even our parents were beginning to fight more and more. Eventually, we all began to see that we just wanted to go away, but we were not allowed to leave. We eventually started hearing about a place called "The Virtual World". We heard it was a place where people would just go and play video games, but it seemed like a weird place. None of us had ever heard of anything like that, and we had also never seen anything like that in our town. The only thing we knew was that it existed, and our parents didn't know where it was. After our parents started fighting more and more, we decided to leave our town. Everyone in our group was having d41b202975
