I have an asp.net project where I have a table that's loaded with data from a SqlDataSource. I need to do some processing on that data before displaying it in a listview. I'm not using an asp:Repeater for this listview, instead I'm doing this with a div. It would be great if I could do this using a paging technique like those mentioned here. I tried using the following jQuery, but no paging seems to work: //Set the first table row to the current date $("#reportingTable tr:first td:first").text($("#reportingTable tr").attr("Sort")); //"Sort" is from a DDL d0c515b9f4
