This is the best book to understand income tax, even without the help of a teacher. I used T. N. Manoharan's books for both intermediate and final CA. The disc "Tax Systems of the World" was also valuable, as it contained all the elements I was looking for. I also used W. D. Romer's "Taxes in the United States" handbook, also very valuable. This book has everything from sales tax to payroll taxes. As I worked through this material, I found that in most cases income taxes were the most difficult to understand.
